

Primary Enterprise (PrEP) Professional Development

PrEP and PrEP Express are integrated enterprise education programmes for students from Years 1 - 8. Young Enterprise Trust provides hands on, relevant, interactive professional development, equipping teachers with the knowledge and experience to develop enterprising attributes and skills in their students. The Foundation PrEP workshop is mandatory to running PrEP or PrEP Express.

Term 1 – Foundation PrEP Workshop

This workshop is designed to develop teachers' knowledge and capability in integrating enterprise education in their classrooms. Through our enterprise programmes an authentic context is provided for students to practise and enrich their enterprise skills. The workshop covers the conceptual 'Framework of Thinking' behind the Trust's enterprise programmes, which is explored through practical and fun activities. Clear links between the programmes and the Vision, Principles, Key Competencies and Values of the New Zealand curriculum are made. Teachers will link practice to theory, providing them with insights into the organisation of our society and economy.

New in 2012: The workshop includes professional development in the use of the new explicit one term module (Enterprise 4 Kids). This module integrates enterprise and financial education within the social sciences learning area.

Advanced PrEP Workshop (optional)

This workshop extends teachers knowledge and capability in integrating enterprise education in their classrooms. Teachers will learn how to integrate aspects of Education for Enterprise and the technology component of the New Zealand curriculum. Teachers will be guided in the effective use of story books to develop and enrich their students understanding of enterprise and entrepreneurship.

Advanced workshops will run dependant on registrations. Please email Sharron.buer@yetrust.co.nz to register interest in this workshop.

Whole School Professional Development

The cost of whole school professional development is negotiable. This workshop can be customised to the individual school's needs.

Contact Sharron Buer on 04 570 3394 to discuss.
